

ADOPT A HOLE

By volunteering your efforts to maintain golf holes, it will not only benefit the golf course but also fosters a sense of community and camaraderie among our members. This is a new and wonderful initiative that you can be part of to maintain a hole and make our course look even more pleasant. By volunteering your services for golf hole repairs, we can achieve the following:

1. A well-maintained golf hole will improve the golfing experience. Your volunteer efforts will enhance the course playability and aesthetics, making the game more enjoyable for everyone.
2. This is your golf course. By volunteering, you contribute directly to the maintenance and improvement of the golf course you love. You can take pride in the upkeep knowing that you “did that”.
3. We will organise golf volunteer Days where volunteers can come together to repair golf holes as a team. We will collaborate with the golf course superintendent to ensure proper tools and materials are available for the volunteer projects.
4. We will recognise all the efforts and offer incentives to members that participate. You will be able to follow your progress on our web page and social pages. Your efforts will create a positive feeling and encourage more golfers to participate.
5. We will provide training on the correct way to repair pitch marks, rake the bunkers and repair fairway divots. We wish to equip volunteers with the right skills and techniques to repair golf holes. We will offer workshops on special projects we agree is beneficial for the course.
6. We will make volunteering a social and enjoyable experience. Refreshments will be provided on Volunteer Days. It will be an opportunity to share stories, and forge connections with fellow golfers who share a passion for the sport.
7. Your efforts will be recognised and acknowledged. We will feature your names or photos on a volunteer wall at the golf course, mention them in newsletters, or hold an annual appreciation event. Recognizing your contributions goes a long way in fostering a culture of volunteerism.
8. We will share stories of successful repairs and improvements made by volunteers. Highlighting your impact will inspire other golfers to join in and contribute to the cause.
